Alright then,
what's your
favorite color
Jackson?

Well
that's easy,
the answer
is orange.

That might
be right, but
that was a trick
question! The
real Jackson
would have
gotten the
Python
reference
and not
cared what
my favorite
color is!

If it's
Monty Python
you want, we
have those guys
too.

That's not the
point! An individual
isn't defined by stored
data, their personality
can't be replaced by
a catalog of things
they used to like! It's
their intrinsic nature
that shapes each new
memory you make.

Jackson I'm sorry,
but I can't join you
in there, I can't end
it all to be another
stored value!

Really?
It's that easy
to opt out?

Well we
can't force
you to do
anything.
We'll release
you, we just
need you to
sign our terms
and agreements.
